

TECHNICAL DATA

Eldorado SC-606 Liquid Steam Cleaner

Description

Eldorado SC-606 is a concentrated, alkaline, liquid steam cleaner, used for heavy-duty steam cleaning of hard surfaces, immersion cleaning or in recirculation tank cleaning, and neutralizing surfaces after acidic paint stripping operations.

Material Properties

- Biodegradable
- Nontoxic
- Safe on steel, aluminum, magnesium, and other structural metals
- Contains no chromates, phenols, or heavy metals
- Nonflammable
- Approved by or conforms to: SAE-AMS-C-22542 (s/s MIL-C-22542B)

Application Techniques

SC-606 is designed for routine steam cleaning at 0.5% at the nozzle. Heavy-duty cleaning may require concentrations of 1% at the nozzle (approximately 1 ounce per gallon of water). SC-606 may be used up to 4% for heated immersion cleaning.

When used to neutralize acidic paint stripper residues, mix 1 part SC-606 with a minimum of 9 parts water and apply by brush, or dilute 1 ounce SC-606 per gallon for non-heated pressure spray cleaning. Attention should be directed toward cleaning out of lap joints, seams, and other areas where stripper residues may collect. Broad range pH paper is used after rinsing to test areas for neutral pH values.

Cleaning and rinsing operations should be conducted in a manner so that material is promptly rinsed off before drying

Avoid prolonged skin contact through the use of rubber gloves.

Health Precautions

This product is safe to use and apply when recommended precautions are followed. Before using this product, read and understand the Material Safety Data Sheet (MSDS), which provides information on health, physical and environmental hazards, handling precautions and first aid recommendations. An MSDS is available on request. Avoid overexposure. Obtain medical care in case of extreme overexposure.

For industrial use only. Keep away from children.
