

TECHNICAL DATA

Eldorado Polish X High Performance Wax/Polish

Description

Eldorado Polish X is a viscous polish and cleaner for painted surfaces of aircraft. Use of the material results in restoration of a lustrous finish to oxidized paint films. Small amounts of UV absorbers extend the period before repolishing is required. Polish X is designed to be used for spot polishing or with power buffing equipment.

Material Properties

- Opaque, viscous liquid
- Flash Point: Above 155°F (68.3°C)
- Safe on metal and non metallics
- Mild odor; easy removal reduces worker fatigue
- UV absorbers to extend topcoat life
- Approved by or conforms to: Boeing D6-17487, Continental

Application Techniques

Apply Polish X to the surface to be polished using spray, mop, or apply on the polish buffer pad. Allow residues to dry and remove with a circular buffing action using a soft cloth. If necessary, buff with clean pads to remove residues and heighten gloss.

Contains petroleum solvent and abrasive. A dust mask is recommended to avoid breathing abrasive particles during buffing and removal. Avoid contact with skin and eyes through the use of rubber gloves and goggles. Use with adequate ventilation. In case of accidental contact with eyes, flush with plenty of water and contact physician. If accidentally ingested, seek medical attention.

Health Precautions

This product is safe to use and apply when recommended precautions are followed. Before using this product, read and understand the Material Safety Data Sheet (MSDS), which provides information on health, physical and environmental hazards, handling precautions and first aid recommendations. An MSDS is available on request. Avoid overexposure. Obtain medical care in case of extreme overexposure.

For industrial use only. Keep away from children.
